

I. Amendments to the Specification

----- Please replace the paragraph at page 3, line 4 with the following amended paragraph: -----

“Figs. 2A to 2E are cross sectional views illustrating a process for manufacturing an array substrate for use in a conventional LCD device. First, as shown in Fig. 2A, a gate electrode 30 is formed on a substrate 1. The gate electrode 30 is made of a low resistive material such as aluminum in order to prevent a signal delay. The substrate 1 can be made of a transparent and rigid material such as glass.”

REMARKS

In the specification, the paragraphs beginning at page 3, line 4 has been amended to explicitly recite a feature of LCD devices that was implicit in the original specification and that is well known in the art. Therefore, this amendment does not add new matter.

Applicants believe the foregoing amendments place the application in condition for allowance and early, favorable action is respectfully solicited.

If for any reason the Examiner finds the application other than in condition for allowance, the Examiner is requested to call the undersigned attorney at (202) 496-7500 to discuss the steps necessary for placing the application in condition for allowance. All correspondence should continue to be sent to the below-listed address.

If these papers are not considered timely filed by the Patent and Trademark Office, then a petition is hereby made under 37 C.F.R. §1.136, and any additional fees required under 37 C.F.R. §1.136 for any necessary extension of time, or any other fees required to complete the filing of this response, may be charged to Deposit Account No. 50-0911. Please credit any overpayment to deposit Account No. 50-0911. A duplicate copy of this sheet is enclosed.

Dated: August 25, 2003

Respectfully submitted,
